# DRAGON POWER TRIPLE GOLD

Journey back to ancient times when mighty dragons ruled the land. Follow the majestic elder dragon back to his mountain lair to unlock the countless riches he guards there.

## Golden orb feature

Randomly in a base game spin, single gold orbs or double gold orbs can be added to the three middle reels. Gold orbs act as respins triggers and as a wild. Double gold orbs act as a x2 wild multiplier.

## Respins

Six or more gold and/or blue orbs will trigger the respin feature. Each additional orb that lands on the reels will reset the spin counter to three. If the player collects three coins, the respin feature will be retriggered after the initial feature ends. At the start of the retriggered feature, all positions with gold orbs are locked, and the remaining positions are reset.

## Free games

Three, four or five ingot symbols will trigger free games with multipliers. After each spin, a random multiplier will appear in the dragon's orb multiplying any line win.
